GET /location/get-share-link?locationCode=LOC_ROOM_01

Auth

Not required

Request Sample

GET /location/get-share-link?locationCode=LOC_ROOM_01

Response Sample

```
{
  "message": "Tao link chia se thanh cong.",
  "locationCode": "LOC_ROOM_01",
  "shareUrl": "http://localhost:3001/room-detail?locationCode=LOC_ROOM_01"
}
```

Error Codes

- 400: locationCode empty or invalid length
- 404: location not found
- 500: unexpected server error

4. Suggested Postman Flow

1. Call POST /auth/signin to get access_token.
2. Call POST /location/toggle-favorite with Bearer token.
3. Call GET /location/get-my-favorite-location with Bearer token.
4. Call GET /location/get-share-link?locationCode=LOC_ROOM_01 without token.
